

Create a class/team for students to join so they can access lessons/quizzes

1. Go to www.kidsboostimmunity.com and click on LOGIN on the top right corner.

2. Go to My Teams on the Menu.

3. Click on Add team

4. Follow the simple instructions on the site to make a team/class. Some steps are optional.

NOTE -The most important step is creating a ‘**team registration code**’. This is a combination of YOUR last name and a unique phrase. **NOTE the teacher’s last name is automatically added** so you just need to create the code phrase.

In the example below, the teacher’s last name is Miller.

The unique phrase they have created is 2022Test. *The teacher did not need to add their last name (Miller) as this is done automatically.*

Thus, the class/team registration code is **miller-2022Test**.

This teacher will share **miller-2022Test** with all of the students who need to join this specific class/team.

This team's registration code is your last name + your unique phrase.

THIS TEAM'S REGISTRATION CODE IS BELOW:

miller-2022Test

- Students will be required to enter this class code when they sign-up, and this code determines which team/class they join. They will be required to enter this only once (during sign-up).
- Decide how you want to share this code with your students (easiest if they can copy & paste).
NOTE - Teachers can make as many teams as they like. It is suggested that teachers make one team per class unless this does not meet individual student needs.

Getting students to join your class

- Here is an easy-to-follow [student sign up guide](https://kidsboostimmunity.com/sites/default/files/reusable_files/student_help_using_kids_boost_immunity.pdf) for joining your class. Just give students this and your class code.
